

Perisher XC Centre Trails and Conditions Report 2020-06-20 10:59:00

Not an outdoors day today. A day better suited to ski tuning in readiness (we hope) for what is to come. The NPWS has provided a Covid-19 update and "answers to frequently asked questions" which is worth reading. I have added a link to the update in the Quick Links below. An internet outage means the Wildcam Is not operational ... but you can take my word for it that there is definitely no XC skiing to be had on the XC trails at present.

Geraldine at the Nordic Shelter

Current Temperature	+1.4 degrees
Overnight Low	-0.9 degrees
Visibility	Excellent
Snow Cover	Negligible (and that's putting a positive spin on it)
Cloud Cover	8/8
Wind	Strong NNW
Weather	Damp. Intermittent Showers.
