

## 2022 UPDATE Pre – Arrival COVID 19 Briefing

Our Lodges operate a prevention strategy based on social distancing, personal hygiene responsibility and extended shared cleaning duties for common areas. We ask that you do NOT come to the Lodges if you are feeling unwell.

If flu like symptoms develop after your arrival, you are required to complete a High Sensitivity Covid RAT test and report the results to the Manager. If POSITIVE you and your close contact travel party must immediately leave the Lodge, so that deep cleaning can be commenced. Lodges are NOT SUITABLE for isolation. \*

Remember:

- Bring your digital Covid 19 Vaccination Certificate with you as random checks may be made
- Bring supplies of high sensitivity RAT tests for your own use
- Bring a face mask

**In 2022 UNREGISTERED GUESTS MAY ENTER BRINDABELLA LODGES, however, those staying more than 15 minutes must comply with Lodge Vaccination policies and complete the Manual Register sheet.**

Kyilla & Tiobunga operate as a single lodge so registered guests may move freely between the two Lodges

### ON ARRIVAL:

**NO matter what time you arrive, including late night and early morning arrivals - BEFORE proceeding further into the Lodge than entry areas you must also complete individual "ON ARRIVAL WAIVERS" for each person including a separate form ( signed by parent or guardian ) for each child.**

To check in LOOK FOR THE SIGN SAYING :

### COVID CHECK IN AREA

- In Waragun COVID Check In is in the entry area
  - In Tiobunga COVID Check In is in the lower TV lounge
    - In Kyilla it is in the entry area. .

Once you have completed and signed the WAIVER ( one for each adult/ one for each child ), PLACE these Forms in the RED "COMPLETED WAIVER FOLDER" to be checked by the Lodge Manager.

**Now you can proceed TO YOUR ASSIGNED ROOM.**

Guests must NOT change their allocated rooms. CHILDREN ARE NOT TO RUN IN AND OUT OF UNALLOCATED ROOMS

We use two primary cleaning and disinfecting sprays throughout the Lodges and each guest room:

- A. **AJAX** general purpose spray removes grease and grime. AJAX is placed at sinks and in bathroom cabinets
- B. **VIRACLEAN – hospital grade SURFACE SANITISER**. Bottles located in rooms, at all sinks and at various places in common areas.

We also supply hand sanitiser in wall dispensers around the Lodge and frequent use is advised

### **ONCE IN YOUR ROOM**

thoroughly clean ( Ajax ) and sanitise ( Viraclean) all touch surfaces. Don't rely on previous occupants to have done a thorough job - THAT'S YOUR RESPONSIBILITY. Cleaning should be repeated frequently and as needed throughout your stay.

**AFTER you've sanitised your room and unpacked, identify your Fridge space AND pantry allocation then carry out the same cleaning regime of touch surfaces.**

### **PLEASE NOTE**

- **Leaving cleaning and sanitising to the end of your stay is simply NOT sufficient to ensure a safe Lodge environment.** EVERY DAY attention to high touch area cleaning and sanitising is essential and we ask that you do your bit

### **DURING YOUR STAY WE ASK THAT YOU:**

- Read the signs in the Lodge relating to maintaining a Covid safe environment.
- Don't rely on other guests to carry out adequate cleaning. YOUR health is in YOUR OWN HANDS every day of your stay.
- Be diligent in frequent cleaning of touch surfaces and carrying out assigned LODGE JOBS.
- Sanitise common use items. These are THINGS YOU KNOW YOU AND OTHERS TOUCH FREQUENTLY Such as Fridge and freezer handles, toilet buttons, edges of doors and chairs, handles and light switches, bannisters etc.
- Try to limit contact with unrelated parties whilst out skiing. Consider use of masks, neck buffs and maintain social distance.
- If lunch areas are crowded, we suggest you remain as short a time as possible ie. less than 15 minutes and consider taking a packed lunch or returning to the Lodge.
- Take a small bottle of hand sanitiser with you
- **If you feel unwell, perform a High Sensitivity RAT test**

### **IN THE KITCHEN:**

- EASY or Pre-prepped meals are best. A Preparation time limited to around 30 minutes allows the next group to start.
- CLEAN AS YOU GO. Leave areas clean and clear for the next group – it's a SIMPLE courtesy.
- Use DISPOSABLE WIPES AND PAPER TOWELS.

### **IN COMMON LIVING, DINING and ENTRY AREAS**

**We request that you:**

- Clean the tables and edges of dining chairs after you use them as these are high touch areas.
- Proactively clean High risk areas such as light switches, stair bannisters, door push plates
- Maintain a good social distance

### **DRYING YOUR SKI GEAR:**

Items worn above the NECK plus GLOVES must NOT be dried in common drying areas. Gloves, face-coverings, goggles, helmets should be dried in an area used only by your travel Group - usually your room / bathroom.

**Please follow signage instructions specific to your Lodge-THERE MAY BE DIFFERENCES.**

### **ON DEPARTURE DAY:**

CLEAN YOUR OWN ROOM AND BATHROOM. Complete your Jobs List tasks **before departing the Lodge.**

**The Lodge Leader is requested to check that guests have completed their cleaning and all assigned Job List tasks. PLEASE DON'T SKIP THIS CLEANING.**

**As a final reminder - our prevention strategy consists of:**

- **Don't come to the Lodge if unwell**
- **Be diligent with cleaning**
- Social distancing
- Washing hands
- Use of hand sanitiser if you cannot wash your hands and consider a face mask
- Staying no longer than 15 minutes in crowded areas and use face coverings.
- Through the season, Face Masks may become MANDATORY so keep up to date with current regulations.
- Consider packed lunches or return to lodge for meals
- Use effective 'in your elbow' sneeze / cough techniques
- **If you show a positive RAT result or feel unwell with Covid like symptoms be prepared to leave the Lodge immediately taking all your gear and food items with your close contact travel party.\***

### **SUMMARY**

**Brindabella Lodges operate an honour system that all Members and Guests will be responsible and diligent in ensuring the Lodge experience is a safe, healthy and enjoyable one FOR ALL. Don't be "That Person" who jeopardised others ski vacation.**

**Your fellow Members are relying on YOU to keep the Lodge infection free by adhering to these recommendations whilst in the Lodge and we thank you for assisting in this.**

**A hard copy of this Briefing is available at your Lodge.**

- **IF you show a positive RAT test, Should dangerous weather conditions impact your departure ,the Lodge Manager will address options with you and your party.**
